Sista Strut - Jacksonville Volunteer Opportunity

Vystar Ballpark

301 A. Philip Randolph Blvd

Jacksonville, FL 32202

08:30 AM - 12:00 PM EST

Monarch Lisa Cooley,
lrd@geamilitarysorority.org

The Law Offices of Ron Sholes Sista Strut aims to heighten awareness about the issues of breast cancer in women of color, as well as provide information on community resources. Studies show that African American women are more likely to get breast cancer at a younger age and have a death rate from breast cancer twice that of Caucasian women of the same age. Sista Strut recognizes the strength of survivors, their family and friends, heightens awareness, promotes early detection, and searches for a cure.

African American women in the US have a 41% higher death rate from breast cancer than white women. African American women are more likely than white women to be diagnosed with breast cancer before age 40 and are more likely to be diagnosed with larger tumors. Awareness of these issues will help survival rates with earlier diagnoses.

You can volunteer or register for the walk/run.
